

MINNESOTA 2nd ANNUAL 5K SCADADDLE® FOR RESEARCH

PLEASE JOIN SCAD Research, Inc. by sponsoring our 5K run/walk to raise money for the #1 cause of heart attacks in women under age 50 – SCAD. Spontaneous Coronary Artery Dissection (SCAD) is a little known and poorly understood cause of a heart attack. It often impacts young and healthy individuals, who do not have the typical risk factors for heart disease.

SPONSORSHIP: Business/organization sponsors play a key role in helping raise money for research to uncover the cause(s) and best treatment options for SCAD. Money raised through SCAD Research, Inc. will help fund the most promising research. Depending on sponsorship level, there are a variety of benefits.

Additional SCAD Facts

SCAD strikes without warning when a tear occurs within the layers of one or more arteries to the heart. This tear blocks blood flow to the heart, causing a heart attack and sometimes death. Research is needed to determine the cause and prevention of SCAD.

- #1 cause of heart attack among women under age 50, new mothers and pregnant women
- More than 90% of SCAD heart attacks occur in women.
- The average age of a SCAD patient is 42 years.
- Those impacted are typically otherwise healthy.
- SCAD can reoccur and can be fatal.

And we don't know why....

2019 SPONSORSHIP OPPORTUNITIES

PRESENTING: \$5,000
SUPPORTING: \$2,500
PATRON: \$1,000
PARTNER: \$500
BENEFACTOR: \$250
FRIEND: \$100
